BIODIVERSA+- BIODIVERSITY AND TRANSFORMATIVE CHANGE

BiodivTransform will aim for interdisciplinary, transdisciplinary, and/or cross-sectoral research and innovation projects to identify, analyse, and comprehend transformation processes that may halt and reverse biodiversity decline.

It should generate knowledge to safeguard biodiversity and ecosystems, as well as the benefits these may provide to people, through transformative change to mitigate and reverse biodiversity threats.

Projects will be expected

- to demonstrate **academic excellence** with potential for **societal and policy impact** regarding biodiversity, aiming to connect science, society, policy, and practices for transformative change.
- to have a holistic approach and to be transnational, inter- and transdisciplinary and mobilise as needed natural sciences, technical sciences, social sciences, humanities, and art.

For both steps, the **international added value** must be clearly presented.

The detailed assessment criteria to be used for this call will be published at the official launch of the call in September.

Indicative timeline:

- 10. September 2024- call will be launched
- early November 2024- deadline of the pre-proposal
- early April 2025- deadline of the full proposal

Further information: [BioDivTransform](#)

WATER4ALL

The general theme of the call is “Water for Circular Economy”.

Research & innovation proposals submitted under the Water4All 2024 Joint Transnational Call are required to address at least one of the following themes:

- **Topic 1:** Enhancement of water circularity in industries.
- **Topic 2:** Urban water circularity.
- **Topic 3:** Resource recovery and valorization.
- **Topic 4:** Economic, environmental and social implications of water reuse and recovered products

Planned duration of the project: max 36 months

Indicative timeline:

- **Call publication:** 12 September 2024
- **submission deadline of preproposals:** 13 November 2024, 15:00 CET
- **Selection of preproposals:** End of February 2025
- **submission deadline of full proposals:** 29 April 2025, 15:00 CEST
- **Selection of funded proposals:** early October 2025
- **Projects start:** end 2025 / beginning 2026

INNOVATIVE HEALTH INITIATIVE- CALL 8

IHI call 8 is a two-stage call with topics on cardiovascular disease, osteoarthritis, regulatory sandboxes, and patient-centred endpoints.

Topics

- [Topic 1: A city-based approach to reducing cardiovascular mortality in Europe](#)
- [Topic 2: Novel endpoints for osteoarthritis \(OA\) by applying big data analytics](#)
- [Topic 3: Modelling regulatory sandbox mechanisms and enabling their deployment to support breakthrough innovation](#)
- [Topic 4: Patient-centred clinical-study endpoints derived using digital health technologies](#)

For full details of the topics, including the budget breakdown, read the [call text](#).

All documents relating to the call can be found via the [Funding and Tenders Portal](#) and the [III call documents page](#).

Timeline:

- Draft topic texts published: 29 April 2024, updated 5 June 2024.
- Call launch: 25 June 2024
- **Short proposal submission deadline: 10 October 2024 at 17:00 Brussels time**
- Full proposal submission deadline: 23 April 2025 at 17:00 Brussels time

DRIVING URBAN TRANSITIONS - DUT Call 2024

The purpose of this Call for proposals is to support transnational research and/or innovation projects addressing urban challenges to help cities in their transition towards a more sustainable economy and functioning. The challenges are grouped into three themes called ‘Transition Pathways’: Circular Urban Economies, 15-minute City and Positive Energy Districts.

This is the third Call of the Driving Urban Transitions (DUT) Partnership, funded by the European Commission under the Horizon Europe Partnership scheme.

This Call is open to a very wide range of scientific disciplines, in social sciences and humanities and arts, in environmental, natural and technical sciences and applied fields, such as architecture, landscape architecture, urban design, design, art, spatial planning and policy development.

Each proposal must be submitted by a consortium consisting of at least three eligible Applicants from at least three different participating countries.

DUT Call 2024 opens 2 September 2024.

Info day 1 (online): 10 September 2024

Stage 1 closing (Pre-Proposal submission deadline): 14 November 2024

MSCA STAFF EXCHANGES

Objective of Staff Exchanges

The Staff Exchanges action funds short-term international and inter-sectoral exchanges of staff members involved in research and innovation activities of participating organisations. The aim is to develop sustainable collaborative projects between different organisations from the academic and non-academic sectors (in particular SMEs), based in Europe and beyond.

Exchanged staff benefit from new knowledge, skills and career development perspectives, while participating organisations increase their research and innovation capacities.

Who can apply for Staff Exchanges?

Staff Exchanges are open to international consortia of universities, research institutions, businesses, SMEs and other non-academic organisations. They need to include

- at least three organisations in three different countries, two of which need to be located in a different EU Member State or Horizon Europe Associated Country
- above this minimum, the participation of organisations from any country is possible
- if all participating organisations are from the same sector (academic or non-academic), at least one must be from a non-associated Third Country

Individual staff members are selected by their sending organisations to take part in the planned exchanges.

What does the funding cover?

Staff Exchanges projects can last up to four years. The grant funds the mobility of seconded staff members from one month to one year. Staff involved should return to their sending organisations after the secondment, to pass on their knowledge.

Staff exchanges between organisations in EU Member States or Horizon Europe Associated Countries are required to be between different sectors (academic or non-academic), except if they are interdisciplinary. For partnerships with non-associated Third Countries, exchanges within the same sector and the same discipline are allowed.

Staff funded by Staff Exchanges

- can be researchers at any career stage, from PhD candidates to postdoctoral researchers, as well as administrative, technical or managerial staff involved in research and innovation activities
- can be of any nationality
- must be engaged in, or linked to, research and innovation activities at their sending organisation for at least one month prior to the secondment
- should return to their sending organisation after the secondment, to pass on their knowledge and foster collaboration

Seconded staff receives

- a top-up allowance (for travel, accommodation, subsistence costs), which is on top of the salary paid by their organisation
- a special needs allowance, if applicable

In addition, funding is provided for

- research, training and networking activities
- management and indirect costs

Launch of the call for proposals: 19 September 2024

Deadline for applicants to submit proposals: 5 February 2025

MSCA DOCTORAL NETWORKS

The objective of Doctoral Networks is to implement doctoral programmes by partnerships of organisations from different sectors across Europe and beyond to train highly skilled doctoral candidates, stimulate their creativity, enhance their innovation capacities and boost their employability in the long-term.

Doctoral Networks implement doctoral programmes, by partnerships of universities, research institutions and infrastructures, businesses including SMEs, and other socio-economic actors from different countries across Europe and beyond. These doctoral programmes will respond to well-identified needs in various research and innovation areas, expose the researchers to the academic and non-academic sectors, and offer research training, as well as transferable skills and competences relevant for innovation and long-term employability.

Besides standard Doctoral Networks, incentives have been introduced to promote two specific types of doctorates as well.

1. Industrial Doctorates. They train PhD candidates who wish develop their skills and step outside academia, in particular in industry and business. Individual participants must be enrolled in a doctoral programme and jointly supervised by the academic and non-academic partners.
2. Joint Doctorates. They provide a highly integrated type of international, inter-sectoral and interdisciplinary collaboration in doctoral training leading to a joint doctoral degree or multiple doctoral degrees awarded by the participating institutions. PhD candidates must be enrolled in a joint programme and be jointly supervised.

Doctoral Networks are open to international consortia of universities, research institutions, businesses, SMEs and other non-academic organisations. They should include

- at least three independent legal entities, each established in a different EU Member State or Horizon Europe Associated Country and with at least one of them established in an EU Member State
- on top of this minimum, other organisations from any country in the world can also join
- specific conditions apply to Industrial and Joint Doctorates

As from 2022, resubmission restrictions will apply for applications that received a score below 80% the previous year.

Candidates wishing to apply for PhD positions under Doctoral Networks should apply to funded Doctoral Network projects by consulting their open vacancies advertised internationally, including on the EURAXESS portal.

The 2024 call is now open. **The call will close on 27 November 2024.**

AZ EUREKA PROGRAMBAN VALÓ MAGYAR RÉSZVÉTEL TÁMOGATÁSA- 2024-1.2.6-EUREKA

A Nemzeti Kutatási, Fejlesztési és Innovációs Alapból meghirdetett felhívás célja a vállalkozói szféra, különösen a kis- és középvállalkozások nemzetközi kutatás-fejlesztési együttműködését elősegítő EUREKA programban való magyar részvétel támogatása, illetve ezen keresztül a magyar vállalatok piacképességének növelése,

- a magyar szerepvállalás erősítése nemzetközi szinten,
- a kutatói és vállalkozói szféra K+F együttműködésének ösztönzése innovatív piac-közeli projektek támogatásával, amely révén prototípus vagy új termék, technológia, szolgáltatás fejlesztésére kerül sor,
- nemzetközi K+F projekteken való részvétel hazai hasznosulásának elősegítése.

A támogatási kérelmek (elektronikus) benyújtása a kitöltő program élesítésétől 2024. szeptember 16. 16 óráig lehetséges, figyelemmel arra, hogy a Nyugat-Balkán felhívás keretében pályázók számára a benyújtási határidő 2024. június 21. 12 óra

A pályázók köre: **A hazai pályázat benyújtására csak olyan pályázó jogosult, amely az EUREKA Titkárság adatbázisában vagy az EUREKA klaszterek nyilvántartásában szereplő angol nyelvű és a nemzetközi konzorcium által benyújtott EUREKA projektjavaslatban vagy jóváhagyott projektben partnerként/konzorcium vezetőként szerepel**, amelyet a magyar EUREKA Nemzeti Projekt Koordinátor igazol. A hazai támogatásra az egyazon nemzetközi EUREKA projektben részt vevő magyar partnereknek konzorciumot alkotva kell pályázniuk.

A támogatható célkitűzések köre:

- önállóan támogatható tevékenység: alkalmazott (ipari) kutatás, kísérleti fejlesztés.
- önállóan nem támogatható: a projekt nyilvánosságával, koordinációjával, piacra jutásával, iparjogvédelmével, utazással kapcsolatos tevékenységek, eszközbeszerzés, immateriális javak beszerzése.

A felhívás keretösszege 450 millió Ft.

A projektenként igényelhető támogatás összege: 20 – 70 millió Ft.

ERASMUS+ / PARTNERSÉGI EGYÜTTMŰKÖDÉSEK A FELSŐOKTATÁS TERÜLETÉN KA220-HED (Cooperation partnership)

Az együttműködést célzó partnerségek keretében a résztvevő intézmények nemzetközi együttműködések terén szerezhetnek tapasztalatot, erősíthetik kapacitásukat és magas minőségű innovatív módszereket valósíthatnak meg.

Az együttműködési partnerségek pályázattípus elsődleges célja, hogy lehetőséget adjon az intézmények számára tevékenységük minőségének és relevanciájának növeléséhez, partnerségeik fejlesztéséhez és megerősítéséhez, nemzetközi szinten való működésükhöz szükséges kapacitás növeléséhez, valamint jó gyakorlatok fejlesztéséhez és megosztásához. Az intézmények számára szakmai megújulást is jelenthet, és lehetőséget ad szektorok közti együttműködések kialakítására.

Pályázati feltételek

- Minimum három különböző, ún. programországból származó szervezet együttműködése szükséges.
- A pályázatot konzorciumi formában kell benyújtani a partnerség koordinátorának országában, a konzorciumvezető székhelye szerint illetékes Nemzeti Irodához.
- A partnerintézményeket a pályázati szakaszban regisztrálni kell és a pályázatban meg kell nevezni.
- Egy intézmény több pályázatot is benyújthat.
- Felhívásonként azonos összetételű konzorcium csak egy pályázatot nyújthat be, egyetlen Nemzeti Irodához.
- A projektek futamideje 12 és 36 hónap között lehet.

Prioritások

A horizontális és felsőoktatásra meghatározott prioritások közül legalább egy prioritáshoz való kapcsolódás szükséges a pályázatban.

Horizontális prioritások:

- Befogadás és sokszínűség az oktatás, a képzés, az ifjúság és a sport minden területén
- Környezetvédelem és az éghajlatváltozás elleni küzdelem
- A digitális átállás kezelése a digitális felkészültség, reziliencia és kapacitás fejlesztésén keresztül
- Közös értékek, polgári szerepvállalás és részvétel

Prioritások a felsőoktatás területén:

- Az összekapcsolt felsőoktatási rendszerek előmozdítása
- Innovatív tanulási és tanítási gyakorlatok ösztönzése
- STEAM-megközelítés kidolgozása a felsőoktatásban, valamint a nők részvételének előmozdítása a STEM-ben
- A tanulás, a tanítás és a készségfejlesztés terén elért kiválóság jutalmazása
- Befogadó felsőoktatási rendszerek kialakítása
- A felsőoktatási ágazat digitális és zöld kapacitásainak támogatása

A támogatás mértéke

Ebben a pályázattípusban egyösszegű átalánytámogatás igényelhető, amelynek mértéke 120 000, 250 000 vagy 400 000 euró lehet. A támogatás mértékét a tervezett tevékenységekkel és az elérni kívánt eredményekkel összhangban kell meghatározni. Támogatás igényelhető például a következő tevékenységekre: projektmenedzsment és megvalósítás, nemzetközi projekttalálkozók, projekteredmények létrehozása, közös tanulási alkalmak, multiplikációs rendezvények. A tervezett pályázati keret a 2024. október 1-i pályázati fordulóban 1 600 000 euró.

Beadási határidő: 2024. október 1. déli 12:00 óra (közép-európai idő szerint)

Pályázati információs rendezvény: 2024. augusztus 28. (részletek hamarosan a pályázati kiírás honlapján)

JOHN TEMPLETON FOUNDATION

The Foundation offers grants in support of research and public engagement in our major Funding Areas. We invest in bold ideas from contrarian thinkers — ideas that cross disciplinary boundaries and challenge conventional assumptions. And we fund innovative programs that engage the public with these ideas, in an effort to open minds, deepen understanding, and inspire curiosity.

Funding areas:

- Character virtue development
- Religion, science and society
- Mathematical and physical sciences
- Life sciences
- Individual freedom and free markets
- Public engagement

The Foundation has made grants to organizations from around the world.

The grant duration is often up to three years. In rare instances the Foundation may support a project for up to five years. The Foundation will not fund any project for more than five years.

The Foundation invites you to submit your project idea through an Online Funding Inquiry (OFI). Although you can complete and submit an OFI at any point during the year, the Foundation reviews all funding requests (both stage 1 OFIs and stage 2 Full Proposals) according to specific dates and deadlines outlined in our grantmaking calendar below.

OFI Deadline August 16, 2024

OFI Decision By October 11, 2024

FP Deadline January 17, 2025

COST- EUROPEAN COOPERATION IN SCIENCE & TECHNOLOGY

COST funds interdisciplinary research networks.

The funding a COST Action receives covers the expenses of networking activities rather than research. As such is used to organise and fund events, Short-term Scientific Missions, Training Schools, communication activities, and virtual networking tools. An estimated **€125,000** is made available for a COST Action **in its first year** and an average of **€150,000 per year for the other 3 years**.

Deadline: **23. October 2024**.

Participation in COST Actions has led to significant results and follow-up in terms of the number of proposals submitted for collaborative research in Framework Programmes, with a success rate which more than triple the average success rates for these programmes (**37% success rate**). By funding networking, COST acts as a pre-portal for further research and innovation funding such as Horizon Europe, the European Union's Framework Programme for Research and Innovation.

You can join ongoing COST Action as well.

LIFE PROGRAM

The LIFE Calls for proposals 2024 have been published on the [Funding & tender opportunities portal](#) on 18 April 2024.

Subprograms:

The **Nature and Biodiversity** sub-programme will aim at the protection and restoration of Europe's nature and halting and reversing biodiversity loss. Thus, the LIFE Nature and Biodiversity sub-programme will continue to fund nature conservation projects, in particular in the areas of biodiversity, habitats and species. It will support projects that contribute to the implementation of the EU [Birds](#) and [Habitats](#) directives, and in particular the development and management of the [Natura 2000 network](#), and the [IAS Regulation](#), and will support achieving the objectives of the [EU's biodiversity strategy for 2030](#), part of the [EU Green Deal](#).

The **Circular economy and quality of life** sub-programme aims at facilitating the transition toward a sustainable, circular, toxic-free, energy-efficient and climate-resilient economy and at protecting, restoring and improving the quality of the environment, either through direct interventions or by supporting the integration of those objectives in other policies.

The **Climate Change Mitigation and Adaptation** sub-programme will contribute to the shift towards a sustainable, energy-efficient, renewable energy-based, climate-neutral and resilient economy, thereby contributing to sustainable development.

Building on the success of the Intelligent Energy Europe (2003-2013) and Horizon 2020 Energy Efficiency (2014-2020) programmes, the LIFE Clean Energy Transition sub-programme continues to support the delivery of EU policies in the field of sustainable energy, in particular, the European Green Deal, the Energy Union (2030 energy and climate targets) and the European Union's 2050 long-term decarbonisation strategy.

FELLOWSHIPS/SCHOLARSHIPS

MSCA POSTDOCTORAL FELLOWSHIPS

Postdoctoral Fellowships helps experienced researchers acquire new skills, develop their careers, and gain international, interdisciplinary, and inter-sectoral experience by working abroad. These prestigious fellowships are a stepping stone in researchers' careers, allowing them to carry out cutting-edge research and to cooperate with leading scientific teams and figures.

There are 2 types of Postdoctoral Fellowships:

1. European Postdoctoral Fellowships. They are open to researchers moving within Europe or coming to Europe from another part of the world to pursue their research career. These fellowships take place in an EU Member State or Horizon Europe Associated Country and can last between 1 and 2 years. Researchers of any nationality can apply.
2. Global Postdoctoral Fellowships. They fund the mobility of researchers outside Europe. The fellowship lasts between 2 to 3 years, of which the first 1 to 2 years will be spent in a non-associated Third Country, followed by a mandatory return phase of 1 year to an organisation based in an EU Member State or Horizon Europe Associated Country. Only

nationals or long-term residents of the EU Member States or Horizon Europe Associated Countries can apply.

Both types of fellowships may also include short-term secondments anywhere in the world during the fellowship (except during the return phase of a Global Fellowship).

In an effort to build bridges between the academic and non-academic sector, researchers can receive additional support to carry out a placement of up to 6 months in a non-academic organisation based in an EU Member State or Horizon Europe Associated Country. This placement needs to take place at the end of their fellowship.

Interested researchers submit an application together with a host organisation, which can be a university, research institution, business, SME or other organisation based in an EU Member State or Horizon Europe Associated Country. All disciplines are eligible for Postdoctoral Fellowships, including research areas covered by the Euratom Research and Training Programme.

The call closes on **11 September 2024**.

MSCA4UKRAINE

The MSCA will also dedicate an additional €10 million to support displaced researchers from Ukraine through MSCA4Ukraine. Since 2023, the scheme has allowed 125 displaced researchers from Ukraine to train and work in 21 countries.

The extra budget will enable around 50 more new fellows, including doctoral candidates and postdoctoral researchers, to continue their work safely in academia, businesses, research centres and public institutions based in the EU and countries associated to Horizon Europe.

The MSCA4Ukraine call will open in August 2024. Interested host organisations and researchers will be able to access the call documents and apply directly via the MSCA4Ukraine website.

The scheme includes specific support for organisations, allowing them to host researchers for a period between eight months and two years and give them

- training
- skills and career development opportunities
- excellent employment conditions
- supervision

The scheme will provide family allowances to help selected researchers with family responsibilities, and a special needs allowance to support those with disabilities and facilitate their participation.

5 August 2024: Online portal open for submission of applications. Access link will be provided at <https://sareurope.eu/msca4ukraine/information-for-applicants/>. Additional Q&A webinar(s) for potential applicants will be organised.

5 September 2024: The online portal will close and no further application submissions will be accepted.

FEBS-FELLOWSHIPS

The FEBS Fellowships programme is a highly competitive and respected programme for early-stage researchers. Most of its schemes over the years have supported graduate students and early-career researchers in the molecular life sciences in the FEBS area to move to and carry out a period of research in a lab in a different FEBS country, thus broadening their experience and training, giving access to additional research techniques and expertise, and facilitating international collaboration.

Types of FEBS fellowships:

- **Short-Term Fellowships** are for scientists who have obtained their PhD degree within the past six years, and PhD students who have at least one published paper as a main author in an international scientific journal. Applications may be made at any time, but an application should be submitted **at least three months before the proposed starting date**
- **Summer Fellowships** are for PhD students and Master's students. Apply by **1 April each year** (the call normally opens in February).
- **Collaborative Developmental Scholarships** are for PhD students or early/mid-career PhD holders in certain disadvantaged FEBS countries. Applications may be made at any time, but an application should be submitted **at least three months before the proposed starting date**.

Further information: <https://www.febs.org/funding/fellowships/>

WISEGRAD FELLOWSHIP PROGRAM

The fellowships are provided for a limited period ranging from 2 to 10 weeks during which the respective fellow is to conduct (or participate in) a concrete research project, hold lecture(s) or seminars at a higher-education level, or study or review specific sets of written or other materials available in a public archive or library

Fellows must be **doctoral students** or hold a **doctoral degree**

deadline: 30 November 2024, 30. June 2025

COMMISSION CALL FOR APPLICATION FOR THE TECHNOLOGY COUNCIL FOR ADVANCED MATERIALS

The Technology Council for Advanced Materials is a high-level group with representatives from the EU Member States, academia, industry, and other key players in research and innovation. It will foster dialogue and collaboration to strengthen Europe's advanced materials sector.

The Technology Council will identify strategic goals and investment priorities for relevant research and innovation. It will align efforts at the European, national, and regional levels and outline initiatives to accelerate the deployment of advanced materials. This coordinated approach supports Europe's ambitions for competitiveness, digital transformation, circular economy, resource efficiency, and sustainability.

The Technology Council will explore synergies across various domains, including a digital infrastructure for advanced materials research and innovation, capital investment and access to finance, standardisation, intellectual property and skills development.

Interested candidates may apply via this online [form](#).

Deadline for applications to be submitted by **9 September 2024** at the latest.

HÍREK A KÖVETKEZŐ KUTATÁSI ÉS INNOVÁCIÓS KERETPROGRAM (FP10) TERVEZÉSE KAPCSÁN

A következő kutatási és innovációs keretprogram (FP10) tervezése kapcsán a tagállamok nagyobb szerepet kérnek a stratégiai prioritások meghatározásában, valamint új "Együttműködési Kutatási Akciók" létrehozását az alapkutatások támogatására. Az Európai Kutatási Térséggel Foglalkozó Bizottság (ERAC) különleges munkacsoportja által készített vélemény hangsúlyozza a költségvetés stabilitását és a program egyszerűsítését. Az Európai Kutatási Tanács (ERC) és a Marie Skłodowska-Curie Akciók (MSCA) folytatását támogatják, de javasolják a missziók kivételét az FP10-ből, mivel ezek túllépnek a kutatási és innovációs keretprogram határain.

ERASMUSDAYS 2024 – REGISZTRÁLJA ESEMÉNYÉT!

Október 14-19. között hat napon át ünnepeljük együtt az Erasmus+ programot és Európát. Jelentkezzen szervezőnek és mutassa meg projektjét a világnak!

A nemzetközi Erasmus Napok keretében együtt ünnepeljük az Erasmus+ programot. A programsorozat 2024. október 14-19. között zajlik, ahol minden projektmegvalósító szervezet megmutathatja magát különféle események szervezésével, a program iránt érdeklődők pedig ellátogathatnak, vagy online csatlakozhatnak a színes programokhoz.

Az Erasmus+ projektmegvalósítók, függetlenül attól, hogy milyen fázisban tart a projektjük, eseményt szervezhetnek az októberi programsorozat keretében, amivel megmutathatják elért eredményeiket, hírt adhatnak a projektről és kapcsolatba léphetnek más projektgazdákkal, illetve a program iránt érdeklődőkkel.

Az esemény tekintetében nincs megkötés: lehet információs nap, workshop, módszertani bemutató, flashmob, élménybeszámoló, vagy bármilyen rendhagyó megmozdulás a résztvevők bevonásával.

ERC GRANTS – ELIGIBILITY OF SWISS HOST INSTITUTIONS

Three of the ERC's upcoming grant competitions to be launched in 2024 will be open to researchers based in Swiss entities.

The European Commission's decision on eligibility for ERC calls has been taken in the context of the ongoing negotiations between the EU and Switzerland on a broad package of measures, which includes Switzerland's association to Union Programmes such as Horizon Europe. The decision goes beyond what the Commission committed to in the Common Understanding and is a clear sign of a goodwill in the negotiation process.

These transitional arrangements will allow for Swiss legal entities to be treated as being "entities established in Associated Countries" for the Starting Grant, Consolidator Grant and Synergy Grant calls for proposals in the forthcoming ERC work programme 2025.

As previously announced, the transitional arrangements apply to the Advanced Grant call under the ERC work programme 2024, which is currently open for the submission of proposals (deadline 29 August 2024). However, grant agreements for all of the above calls may only be signed with successful applicants if the association agreement with Switzerland applies at that time.

INTERREG CENTRAL EUROPE: ELŐZETES A HARMADIK FELHÍVÁSRÓL

A program következő pályázati felhívása 2024. október 15. és december 10. között lesz nyitva. Ezúttal kifejezetten a leszakadó, nehézségekkel küzdő térségek problémáira fókuszáló, kisebb projektek előkészítésére nyílik majd lehetőség.

Az első két pályázati felhívás keretében jóváhagyott 100 Interreg CENTRAL EUROPE projekt tematikus elemzésével a programtitkárság azonosította azokat a specifikus célokat, amely hozzájárulhatnak a leszakadó régiók problémáinak kezeléséhez, és amelyekben további projektek leginkább hozzá tudnak járulni a program-célok eléréséhez:

1.2 Készségek fejlesztése a közép-európai intelligens szakosodáshoz, az ipari átalakuláshoz és a vállalkozói tevékenységhez

2.5 városi mobilitás zöldebbé tétele Közép-Európában

3.1 A vidéki és periférikus régiók közlekedési kapcsolatainak javítása Közép-Európában

4.1 Az integrált területi fejlődés irányításának megerősítése Közép-Európában

A tematikus fókusz mellett a felhívás abban is különleges lesz, hogy gyorsabban végrehajtható, kisebb volumenű projektek fejlesztésére ad lehetőséget:

- 12-24 hónap projekt-időtartam;

- legalább 3 partner, különböző országokból;

- legfeljebb 800 ezer euró költségvetés (640 ezer euró támogatás);
